Code for Justice

DESIGN STATEMENT:

This activity/form will help your team choose a single idea to pursue during your **Code for Justice** hackathon. By drafting a design statement, you will be forming your concept into a more concrete document to be submitted.

DEVELOP ONE IDEA

We have created a website called ___STAY_____ that addresses the issue of

(project name)

Housing Justice.   (social issue addressed)

This is a serious issue because many people cannot afford the proper housing or any housing at all. Housing should be affordable for all. Many of these people who can't afford housing might eventually become homeless. **STAY** is a non-profit organization that focuses on re-establishing affordable housing for those who can't afford it. STAY has a mission of helping those in need during these hard times. At STAY, we believe that housing is a human right, not a commodity to be bought and sold for profit.

The goal of our organization is to help those people who are in need of housing. Our organization offers help in many ways. Many of these resources that we offer can vary from helping those who are searching for homes to guiding people who are experiencing homelessness. Our organization also offers help in finding affordable homes near you. Our website has a built-in feature that can find the nearest Shelter and Realtor near you. STAY is organized to expand the supply of low-income housing and establish housing stability and also to educate the homeless and support their needs.

NOTE: You must include your team's design statement when you submit your project.
